

# Sparkling Mindz Global

Not just a building with four walls, there is a tomorrow inside.

**Learning as a joyous experience:** It is very important that children develop an intense interest in their learning and find it joyful. This ensures that the children are engaged and they push themselves to learn more. To achieve this, we have game-based learning methodology, flexible learning methods, a woven mix of academics and extra-curricular and a team of passionate professionals working to make this happen every day.

**Children as co-owners and collaborators of learning:** When children take up their learning as a responsibility they share and own with others, their learning is not limited to a person or place. They seek new avenues for learning and it becomes a lifelong process than something restricted to a class-room.

**Wide Angle View on learning:** Learning has a broad spectrum and generally gets narrowed down to learning by rote for exams. We have opened up possibilities of what a School can do for a child. We have developed an innovative dbest curriculum framework which enables holistic learning. We are also looking at connecting the school with a professional network that gives the children an exposure to the very best achievements in the world..

**Children as change makers:** Why should a child possibly wait for 16-20 years to add value and contribute to the society? With a close connect to the community and engaging with the community's problems, they start becoming catalysts of change and growth, having a clearer picture of the realities of the world. This enables children to take pride in achievements beyond their academics

**Innovative Quality Systems:** A robust assessment system that measures impact in all the different dimensions clubbed with a rigorous hiring and training system ensures that quality is delivered. We also see parents as partners in the learning process for a child and work closely with them to make learning and development happen.

Playgroup-UKG, 1-5 | CBSE-IGCSE | 1 Acre Campus | 25 Children per classroom | Pod based seating | School Bus Facility | Daycare Facility | Home cooked meals | Playground | Well Qualified Facilitators | Safe & Hygenic Environment
