NO VIRUS CAN STOP US FROM LEARNING

We can use this time to work on ourselves, help ourselves or choose to laze away our time. In this news-letter we are going to show you how did the members of Phoenix used their time. - Samruddha

Nothing has to be perfect. It's the way you look at it. - Shaurya

Want to see it? Here is your chance to spot ISS.

Follow these instructions.

1. Download ISS LIVE NOW app from Google PlayStore.
2. After you open the app, you will see the present location of ISS.
3. You can also search using your city name to check when we can spot the ISS.
4. If you are lucky [like me] you can spot ISS on a clear night sky.

All the best, and
let me know if you spot ISS.
"No virus can stop us from
that."

COPING WITH COVID-19

- *Manha Z*

These past few months most of the world has been shaken up due to this pandemic. One of the actions the government of India has taken ,to beat the corona virus , is complete lock down . Just like for the rest of the country, lock down was slightly startling for me too. In fact, in the beginning there was an entire whirlwind of emotions inside of me. This led to me procrastinating quite a bit. Not only did this cause more problems but it made me extremely irritable which in turn caused me to fight with my family a lot more. But with the help of reflections I managed to overcome it. Soon I realized that rather than doing just the amount of work we were given, it would help me a lot more if I decided to put in a little bit more effort and improve myself, every possible way. So I started spending more time with family, started exercising a bit more, started doing my school work a little bit deeper and lastly started doing my reflections deeply.

A VIRUS CAN'T DEFINE US
A VIRUS CAN'T STOP US
BUT A VIRUS CAN IMPROVE US
,TO BE HYGENIC AND HEALTHY
IT CAN HELP US USE BRAINS RATHER THEN
WATHING SCREENS AND DOING NOTHING

By Sabareesh
